Donation to SWCD					
Grand Total (Please double-check your math)					

All stock is bare-rooted seedlings, 1 to 2 years old. An average order will fit in a grocery bag (excluding perennials). Plant species are subject to availability.

Items are ordered in units (i.e. one unit of Norway Spruce is 10 trees). Calculate the total amount of the order at the bottom of the form.

Orders must be picked up on Tuesday, April 9th between 7:30 a.m. and 3:30 p.m. at the Preble SWCD Office. Orders not picked up on this date will be considered as a donation to the SWCD Office. A postcard reminder will be sent with more details. If you have further questions regarding your order, please contact Preble SWCD at (937) 456-5159.

**All orders must be accompanied by cash or check and received by:
Friday, March 22, 2019**

Please remit order form with check payable to:

**Preble SWCD
1651 N. Barron St.
Eaton, OH 45320-1021**

Please complete ALL of the lines below to help us process your order:

Name: _____

Address: _____

City: _____ State: _____ ZIP: _____

Phone: _____

What other species would you like to see offered in the future? _____

Thank you for your order!

All programs and services of Preble SWCD are offered on a nondiscriminatory basis, without regard to race, color, national origin, religion, age, sex, or handicap.

CONIFERS

NORWAY SPRUCE

Dense, dark green needles never get longer than 1". It is one of the fastest growing of the spruces.

75'-100' Tall Full sun Average soil

WHITE PINE

Thin, flexible needles in bunches of 5 are light green and 4" long. Produces brown cones within 5-10 years.

50'-100' Tall Full sun
Well drained, slightly acidic soil

RED CEDAR

Thin, branch-like needles with an aromatic, reddish bark. Small blue gray berries in fall.

Up to 50' Tall Full sun
Well drained, will tolerate various soil conditions

BALDCYPRESS

This deciduous conifer, meaning it drops its needles every fall, produces an orange-cinnamon foliage in the fall.

Up to 100' Tall Full Sun Moist Soil

PERENNIALS

PINK CREEPING PHLOX

Groundcover that is known for its beautiful carpet of showy pink flowers in springtime.

3-6" Tall x 2' Wide Full Sun Fertile soil

BUTTERFLY MILKWEED

Welcome Monarch butterflies to your yard with this beautiful plant! Exhibits beautiful showy orange blooms in summer.

1.5' Tall and Wide Full Sun Wet soil

BLANKET FLOWER

A member of the Aster family with vibrant orange and yellow daisy-like blooms from late spring through fall. Seedheads left on plants will allow plants to reseed themselves.

1.5' Tall & Wide Full sun Variety of soil conditions

CARDINAL FLOWER

Striking tubular red flowers are featured on upright stalks in late summer.

4' Tall x 2' Wide Full sun/Part shade Moist/wet soil

BLUE EYED GRASS

This unique perennial features graceful grass-like foliage with violet-blue blooms that appear in springtime featuring 6 prominent petals and a yellow center, somewhat reminiscent of an iris. Dividing plants every few years will help them remain vigorous.

1.5' Tall x 1' Wide Full sun Moist soil

HARDWOOD TREES

SUGARBERRY

Large deciduous tree producing small, fleshy berries that are commonly eaten by wildlife and are both edible and sweet.

60'-80' Tall Full sun Wet soils

BLACK WALNUT

Large tree with an oval-shaped, open crown. Large compound leaves are dark green, turning yellow and dropping early in the fall.

75' Tall Full Sun Moist, well drained soil

TULIP POPLAR

Also called Tuliptree, Tulip Magnolia, and Yellow Poplar. Light yellow flowers begin blooming in May, but are less than noticeable. Leaves have a tulip shape, and turn golden yellow in fall.

70'-90' Tall Full Sun Deep, moist soil

RED OAK

A popular shade tree that does well in city conditions. Easily transplanted. Has a rounded crown with spreading branches. Leaves change to brownish-red color in the fall.

60'-90' Tall Full sun Variety of soils

BLACK MAPLE

Similar to the well known Sugar Maple, this shade tree is well known for its yellow, red, and orange fall colors.

60'-75' Tall Full sun Well drained soil

SHAGBARK HICKORY

Well-known for its distinctive loose-plated bark and attractive yellow fall color. The wood is known for toughness and hardness. It also produces nuts, which are edible and it attracts various wildlife.

70'-80' Tall Full sun/Part shade
Well drained soil

FRUITS

RHUBARB

An edible leaf stalk with a slight tart flavor. Appears in colors of red to pink to green. The large heart shaped leaves are toxic and must be removed before cooking!

3' Tall x 4' Wide Full sun/Part shade
Well drained, moist soil

GOOSEBERRY

This deciduous shrub is known for producing edible berries, commonly used in jams, jellies, and pies. Berries ripen in July and has a vigorous growth habit.

4' Tall x 3' Wide Full sun/Part shade
Well drained soil

SMALL TREES

BLACK CHOKEBERRY

Deciduous shrub that is noted for its cluster of white spring flowers in May. In fall, it produces small black berries and has a red/purple fall color.

3'-6' Tall & Wide Full sun/Part shade
Moist, well drained soil

WHITE FLOWERING DOGWOOD

One of the most popular of native trees. Has a four season appeal with its white flowers, red berries, crimson fall color, bark texture, and branching character.

Up to 40' Tall Full sun/Part Shade
Well drained soils

HAZEL ALDER

A multi stemmed, large shrub, commonly spanning lakes/rivers/streams. Female catkins produce fruiting cones, which are preferred by birds.

10'-20' Tall x 8'-15' Wide Full sun Wet soil

NEW JERSEY TEA

This rounded shrub produces small clusters of tiny white, fragrant flowers, which are attractive to hummingbirds and butterflies. The leaves are also known to be used as a tea substitute during the American Revolution!

3'-5' Tall & Wide Full sun/Part shade
Dry, well drained soil

PAW PAW

Also known as custard apple and poor man's banana, this tree has been named Ohio's Native State Fruit. This tree produces suckers to form a 'paw-paw patch'. At least two plants are needed for cross-pollination. The foliage turns a bright yellow color in the fall.

Up to 40' Tall Full sun/Part shade Moist soil

SUMMERSWEET

A deciduous shrub known to thrive in swampy woodlands in sandy soil. Sweet smelling white flowers bloom in mid to late summer. Turns to beautiful shades of yellow and golden brown in autumn.

3'-6' Tall x 4'-6' Wide Full sun/Part shade Wet soils

EXTRAS

WILDFLOWER SEED MIX

This mix of annual and perennial native and naturalized wildflowers contains 33 different species, including coneflowers, lupine, coreopsis, poppy, cosmos, and others.

1 oz covers approx. 125 sq. ft.

1 lb covers approx. 2,000 sq. ft.

MARKING FLAGS

36" tall, pink flags are visible almost anywhere. Great for marking tree seedlings, field plots, garden rows, tile holes, and more. These flags can prevent a disease known as lawn mower blight which is known to affect tree seedlings.
